PHYSICIAN & EPIDEMIOLOGIST

Dr Banda *Khalifa*

MD · PhD · MPH · MBA

Global health & *pharma strategy*

PROGRAM BIOGRAPHY

Dr Banda Khalifa is a physician and epidemiologist. He led medical teams on UN missions in Mali and Côte d'Ivoire, supported Ghana's vaccine rollout and studied how Medicaid rules affect access to medicines. He serves on the WHO African Region's Emergency Preparedness and Response Technical Advisory Group. He earned his medical degree at the University of Ghana and his PhD, MPH and MBA at Johns Hopkins.

Speaking themes

Explore all eight talks

Outbreaks & vaccine delivery

Emergency decisions, public trust and getting vaccines to the people who need them.

Medicines & market access

Clinical development, drug safety and how patients, clinicians and payers judge value.

Evidence & responsible AI

Explaining early findings and checking the work when researchers use AI.

Leadership & global health careers

Leading teams under pressure, finding mentors and choosing graduate training.

ON STAGE Harvard Africa Health Conference panel Johns Hopkins mpox presentation
